IF Shade and sunshine alternate in our advices from Washington. One judicious friend writes that the Bank bill turned with objections-the latter, most probably,

We do not pretend to judge between these conflicting and ledger and counter. ticipations, but we desire only to keep the public mind prepared for any possible contingency. We insist that, in any event, the Whig party and its Statesmen shall prove themselves competent to govern the country. If we can agree on a Bank in the first instance, very well; if we cannot, let us hear the objections, and obviate them if possible. If it be found impossible, on a calm comparison of views, to agree upon the features of a Bank, let us defer that subject, and press the more resolutely the measures we can agree upon and carry. But at all events no passion, no intolerance of dissent, no resignation of Cabinets or pettish breaking up of Congress. He who counsels any such course favors the destruction of the Whig party and the betrayal of the Country. We believe, if nothing goes wrong, the Bank bill will be taken out of Committee to-morrow and passed on Saturday.

The Albany Argus is horror-struck at the idea of a Wheg impost on Tea, Coffee, Sugar, Molasses, and other necessaries of life. If the Administration which that paper uniformly supported had not wasted the Public Revenue and run the Country in debt, there would have been no need of such a tax. Now, while violently clamoring against a permanent National Debt," they struggle desperately to make it permanent, by resisting every effort to pay it off.

BJ Ten years ago a Jackson Congress exempted Railnever liked the policy, and condemn it now. Last week Mr. W. W. Irwin, a Pennsylvania Tariff Whig, moved the repeal of this exemption, but was voted down. And now the Albany Argus is mean enough to talk of the new Revenue Law as a Whig tax, on the Ten and Coffee of the Poor, while it exempts the Iron of Railroad Corporations!

[F" John" inquires of us what good it does to whitewash the outside of the pipes which our Corporation employee's are now laying down in our streets ?-It is, probably, intended to keep the water clean.

New-Orleans-Slave-Trade-the Insurrection, &c. Correspondence of The Tribune

New-Orleans, July 26, 1841. A week ago I wrote to you that the Collector of this Port had given instructions to the Commander of the Revenue Catter to proceed in search of a Slaver which had been seen in our waters. The Collector was in possession of accurate intelligence that this Slaver had landed in an out of the way place in Matagorda Bay, Texas, about one hundred and fifty of its victims-with very good reason supposed to be less than half the cargo. Capt. Jones of the Cutter, however, did not choose to trouble himself in any attempt to break up this most inhuman of all systems of piracy; for, instead of proceeding in search of the Slaver, he set sail for Baltimore, at which Port he will probably have arrived before this letter reaches you. The excuse of the Captain is not considered so good as it might be; he gave as a reason for his departure don Bremer was gone to Bengal for reinforcements, but was that the Cutter wanted repairs. The Expedition I mentioned as likely to start from this Port has been abandoned, and the Slaver will have it all its own way for the present, unless she should happen to fall in with a British cruiser. Should any intelligence respecting its movements be received, however, sufficient to guide an Expedition in pursuit, one will be fitted out. A paper from the Coast reported, a few days since, that the Revenue Cutter McLean was in chase of the Slaver; but I have no means of learning the

Our City has been the scene of no inconsiderable degree of excitement during the last week, in consequence of the reports circulated respecting the contemplated rising of the deal only for cash, and insisted on being paid before the Negroes at Bayou Sara. The accounts first received were very much exaggerated. It was said that the plot extended very much exaggerated. It was said that the plot extended again compelled to leave for Macao. A large encampment to all the Negroes in Louisiana and Mississippi, and fearful of Chinese troops was visible from the factories, at a little attention and various other barbarities kept the timorous portion of our population wide awake for two or three days. Subsequent accounts, however, have served to calm the fears of the most excitable, and it is pretty generally admitted now, that there was 'great cry and little wool.' The plot was evidently confined to the slaves upon three or four plantations, and was probably not so far matured as to have assumed form or complexion. There is a vast deal of vagueness about the whole affair. Thirty or forty Negroes and one white man are under arrest, and are to be tried at Bayou Sara to-day. The Laws of most of the Slave States. so far as they bear upon the slaves, have been 'written in blood'-and if evidence can be gleaned to raise a reasonable suspicion that these Negroes were engaged in the horrible crime of which they stand accused, their doom is sealed. Their sentence and execution will follow quick upon the

Mornovish.-We are surprised to learn that the greatest imposture of the age, Mormonism, has found a foot-hold in the intelligent State of New-Jersey. The Trenton State Gazette informs us that the disciples of Joe Smith have two imperial intentions Societies in Monmouth County, one at Horner's town and the other at Tom's river. About a hundred belong to the former and 70 or 30 to the latter. They have also meetings regularly once a week at New Egypt, besides occasional meetings at other places.

CLERKS' HOURS OF LABOR .- A select and very interesting Meeting, preliminary to a general one, of about fifty of the Dry Goods Clerks of some of the largest Houses in the City was held on Monday evening last. Their object was to confer upon the expediency and plan of better regulating the hours of attendance in those stores, keeping in view no only the desired modification, but the better interests of their Employers and the cause of Public Morals, all which suffer to gladden a fervest heart. Such a compilation was n under the present system of late hours, which are injurious alike to mind and constitution. A more general Meeting will be held on Monday evening next, the proceedings of which we shall notice. Our City numbers no less than Four will go through the House this week, and be approved by Thousand Clerks of Dry Goods Stores, as was ascertained the President before the close of next, and that all the important measures of the Session will be perfected. FROM CHINA DIRECT.-The ship Akbar, Capt. Dumaresq arrived at this port yesterday in 109 days from Canton, whence she sailed on the 10th of April. She encountered a furious storm on the 4th of June off the Cape of Good Hope, in which her tiller was broken by a wave, her fore-topmast road Iron from the payment of duty on its importation. We staysail blown in pieces, and, before another tiller could be shipped, the ship lay thirty minutes in the trough of the sea, every wave making a breach over her, staving in her bulwarks, washing away her starboard quarter boat, &c.

The Evening Star gives the following summary of Chi-

Immediately after the fall of the Bogur forts, the city of Canton was evacuated by all who could afford to leave, taking with them their families and property, and, when the Akbar left, China-street and the business part of the suburbs were descrited, shops closed, and scarcely any one to be seen. On the news of the attack upon the Bogue reaching Pekin, the Emperor ordered three Imperial Commissioners [one a near relative] to proceed to Canten, and to exterminate the Eng-lish, swearing in his edict that both powers could not stand, one or the other must conquer or perish. Keshen was or-dered in chains to the Capital to be tried as a traitor for having degraded himself so much as to meet the Plenipotentiary, or to listen to the cession of Hong Kong. Two of the important characters reached Canton in time to behold the success of the British arms, and to sign the truce and sanction a temporary trade.

Captain Elliot was at Canton, protected by a military guard, waiting the arrival of "Yekshan," the Emperor's nephew, who was hourly expected, and who would be compelled, by force of necessity, to sanction the arrangements made by his colleagues. Four men-of-war are stationed in the Macao passage, above Canton; three a few miles below, and six at Whampon, where they will remain, to insure the safety of the foreigners, and to check any treachery on the

expected to return about the first of June, when the fleet would go North again, to make another demonstration upon the capital, Pekin.

The loss of the Chinese in the various engagements was estimated at 2500 or 3000 men, and about 800 pieces of cannon. The Chinese admiral, Kewang, fell in defence of the Bogue forts, as did two other mandarins of high rank. The captain of a British transport, arriving at Chusan after the surrender of that island to the Chinese, was slain on landing. The day after the fall of the Bogue forts rewards were offered for the capture or destruction of the British ships: \$100,000 for a line-of-battle ship, \$10,000 for a \$50,000 for the Admiral or Captain Elliot, if taken alive, and \$30,000 for either of their heads.

Teas were delivered. It was believed that the arrangement for trade could not last long, and that the foreigners would b distance from Canton, and the number was daily increasing. Green Teas were very scarce in market, having been kept back and large quantities sent away when the British approached the city. The current report on the 16th of April was, that the Chinese Government had laid an embargo on all boats, intending to use them for the conveyance of t

The Akbar left the following American vessels at Whampon:-Whale ships Eben Preble, Lowell, Narragansett, Hamilton, Splendid, Oueida, Kenohasset, Sumatra, and brig Argie; barque Florida, at Macao. Ship Leonidas sailed Macao on the 31st of March, and Horatie from Whampon on the 1st of April-both vessels bound for New-York.

The charges preferred by the Lieut, Governor of Canton against Keshen were eight in number. It is said that Keshen has been executed, but the report needs confirmation.

POSTSCRIPT.

By this Morning's Southern Mail.

Correspondence of the Tribune.

TUESDAY, Aug. 3, 1841. In the Senate to-day, Mr. TALLMADGE presented a memorial of 108 citizens of New-York, in favor of a Bankrupt

The resolution of Mr. ALLES, to rescind the rule of the Senate, which provides for the closing of their doors in Executive Session, except when engaged on treaties, was taken

Mr. ALLEN advocated the resolution at some length, concluding that secrecy was not required while acting on the nominations of officers, as they deeply affected the interests of the people, holding in their hands, and swaying for good or for evil, the whole action of government. The people should therefore know of the action of their agents on this subject, and be enabled to be heard with regard to the character of those who are appointed in such multitudes to office. The character of the candidates who were worthy could not be injured by public investigation, while it would expose guilt and corruption. When dealing with adversaries or with foreign powers, as in the case of treatise, the progress of their action should not be known until it was consummated, therefore did not propose to rescind this part

Mr. CLAY was not disposed to debate this subject at this Extra Session-were it the proper time it might be shown that publicity should not be given to their action on nomina tions, as well as an treaties. He would now merely move to lay the resolution on the table, and on this he called the yeas and navs.

The motion was carried by Yeas 26, Nays 20; and thus the resolution laid on the table.

The Fortification bill was then again taken up, in Committee of the Whole, the question being on the amendment of Mr. PORTER, to appropriate \$50,000 for barracks, reonies of forts, &c. at Detroit.

To this Mr. ALLEN offered an amendment, appropriating for the construction of armed steamers and other vessels of Government on Lake Eric, \$180,000. Both these propositions were debated at great length

The amendment to the amendment was rejected without s division, and the original amendment by Yeas 21, Nays 24. Mr. Sevier offered an amendment to appropriate \$50,000 or carrying on the military works at Fort Smith, Arkansas,

which was adopted: Yeas 19; Nays 17. Mr. BERRIES moved an additional section to the bill, ap propriating \$205,613 for payment of Georgia, for expenses corred in calling out her militia in cases of emergency in repressing Indian hestilities, and for the settlement of claims

of the State of Maine of a similar character

Mr. Preston, Chairman of the Committee on the Militia who reported the bill, opposed this amendment. The bill was for the specific purpose of suppling the deficiency of last year's appropriations for old works of defence, which were ow most necessary; and he opposed all amendments which had not been sanctioned by the War Department, or by the

The amendment was debated at great length by various members, among whom Messrs. CLAY of Ala. LINN and WALKER either moved or gave notice of amendments, if this was persisted in, for the payment of old dues to their re-

spective States. The amendments were however withdrawn, and that of Mr. BERRIEN rejected-Yeas 11, Navs 27.

Several other amendments were rejected, which were a companied with much debate. The bill was then reported to the Senate, and the amendments of the Committee genecally concurred in, to that appropriating \$75,000 for the purchase of a site of a Western, South-Western or North-Western frontier. This, Mr CLAY said he could not vote for, in this reduced state of the Treasury, and hoped it would be rejected. Mr. BENTON, who offered it, was much surprised to hear at this late hour, objections to this amendment and wished an opportunity when prepared to show the ne-

After some further conversation on this, the Senate ad-

irned at four o'clock. In the House of Representatives, a resolution was adopted equiring of the Postmaster General the reason of the dention of the great Southern Mail thirteen hours and a half

Also, a resolution, directing the Secretary of the Navy to nquire into the expediency of preparing for the immediate lefence of Chesapeake Bay by steam batteries.

The Fiscal Bank bill was then again taken up in Commit-tee of the Whole, and debated during the day by Messrs. Mason of Md., Chas. Brown of Pa., Wood of N. J. and Payne of Ala. in opposition, and by Mr. Washington of N. C. in America.

The House adjourned at half past 3 o'clock. Anors.
